Your Amazing Life Experience Starts Here

CIVIL ENGINEERING

The Civil Engineering Program prepares students for design and management of civil infrastructure including water resources, geotechnical engineering, structural engineering and transportation. The program is based upon the San Diego State University program and is positioned for international accreditation according to the American Board of Engineering and Technology standards. Graduates can be expected to gain positions in the private or public sector in design or management positions of utility companies, municipalities, engineering consulting companies or the manufacturing and mining sector. There is a strong demand for qualified engineers and the salary growth is strong both locally and internationally while the local market is currently critically undersupplied and internship opportunities are currently being filled during the second year of studies on the San Diego State University joint degree operating in Tbilisi. There are also opportunities for graduates to continue their study abroad in San Diego or other international universities at a Master's or Doctorate level.

3 reasons to study Civil Engineering program at Ilia State University:

- One of the ABET track accredited programs that have been positively reviewed by American experts
- Programs follow the American learning style of broad general education supplementing technical subjects
- Civil Engineering Program includes broad directions in many infrastructure areas, as compared with traditional Soviet inherited programs which are focused in only one direction

Entry Requirements and Application Documents

CIVIL ENGINEERING

ENTRY REQUIREMENTS FOR NEWCOMERS:

- High school certificate or equivalent
- English language certificate (equivalent to B2 level)
- Interview
- Entrance exam in Mathematics or Physics

APPLICATION DOCUMENTS FOR NEWCOMERS:

- High school certificate or equivalent
- English language certificate (equivalent to B2 level)
- Passport
- Photo

ENTRY REQUIREMENTS FOR TRANSFER APPLICANTS:

- At least 1 semester transcript
- English language certificate (equivalent to B2 level)
- Interview

APPLICATION DOCUMENTS FOR TRANSFER APPLICANTS:

- At least 1 semester transcript (course descriptions are mandatory)
- English language certificate
- Passport
- Photo

Admission process and online application can be found at <https://ISU.ge/apply-now>

Program Duration	8 Semesters (4 Academic Years) – 252 ECTS
Awarded Academic Degree	The Degree of Bachelor of Civil Engineering
Language Requirement	Min. B2
Tuition Fee	\$ 3500
